FYBER N.V.

**Preliminary nine months financials,
adjustment of 2018 forecast & 2019 forecast**

Berlin, 6 November 2018 - Fyber N.V. (“Fyber” or the “Company”) announces preliminary financials for the first nine months of 2018, an updated forecast for 2018 and adds guidance for 2019.

Since the broad scale market adoption of the new products, including Fyber’s core product Fyber FairBid, among existing and new clients is in part behind schedule, the Company adjusts its forecast for the full year 2018, now expecting gross revenues between €130 and €135 million (previously: €150 to €180 million) and an adjusted EBITDA* between €-5 and €-7 million (previously: around break-even).

This is based on preliminary calculations for the first nine months of 2018 with gross revenues of around €90 million (9M 2017: €177 million) and an adjusted EBITDA* of around €-8 million (9M 2017: €-3 million).

Furthermore, management for the first time adds a guidance for the full year 2019 - expecting to deliver gross revenues in the range of €155 and €175 million at an EBITDA between break-even and €5 million.

*Adjusted EBITDA is excluding one-off impacts such as impairment of goodwill, acquisition related costs and option plans as defined in our Annual Report 2017 available on Fyber’s website <https://investors.fyber.com/reports-presentations> and is not a measure calculated in accordance with IFRS.
